

BADASS

ONE VASE. THREE STRAPS.

BADASS is a vase full of contrasts that is anything but fragile. In fact, the desire has been to create a vase with a more masculine attitude that can make up to floral arrangements and add a solid feeling to its surroundings.

CLEANING INSTRUCTIONS

Clean and dry the vase by hand, and remember to remove the leather straps.

As a natural material, leather changes colour over time and may therefore be affected by the sun or fluids.

Dry off the straps with a damp cloth.

Never use dishwashing soap to clean the straps, but using soap flakes and leather grease will not damage the leather.

Otherwise, we recommend using a dry-cleaner with knowledge of leather.

WARNING

YOU MUST HANDLE A 'BADASS' WITH CARE.

Do not place the vase directly in the sun for too long with the leather straps attached to it. Too much sunlight causes leather to dry out and fade.

The leather straps are solely for the use of decorating the vase and should not be used for any other purposes.

Keep out of reach of children and animals.

Important: Use the leather straps in the right order on the vase so that the straps do not expand when used incorrectly.

Strap no. 1 = the upper part of the vase

Strap no. 2 = the middle part of the vase

Strap no. 3 = the lower part of the vase

See the instruction illustration.
